

BIOTECHNOLOGY - DRY LAB & WET LAB TRAINING PROGRAM

Hands Your Skills for Research, Pharma & Diagnostics & IT Careers

Hands-on Skills for Research, Diagnostics & Life Sciences Careers

★ DRY LAB TRAINING - ★

- Bioinformatics Tools & Databases
- DNA/RNA & Protein Analysis
- DNA/RNAST & Sequence Analysis
- NCBI, BLAST, UniPort, PDB)
- Sequence Alignment (Clustal, MEGA) Software
- Molecular Docking & Drug Discovery
- Biochemical Assay Development Tools
- Genomic Data Handling
- Gene/Protein Prediction Tools
- In-situ PCR, RT-PCR, Primer Designing
- Basics AI & ML in Life Sciences

★ STUDENT BENEFITS

- 100% Skill-Oriented Hands-On Training
- Basic RNA Isolation Quantification
- Gel Electrophoresis/Agarose (Wet Lab)
- Cell Culture Setup
- Cell Culture Basics
- PCR Techniques Tool Optimization
- Project & Mini-Project Guidance
- Personalized Mini-Project Support
- Affordable Fees + EMI Available
- Real Laboratory Handling Experience

★ STUDENT TRINEFITS

- Training designed by research scientists & industry professionals
- Practical approach + Profile Development
- Transparent fees, real dates & protocols
- Perfect for students across with jobs step to step, Life Sciences & research

→ CAREER PATHS →

Bioinformatics Analyst → Research Assistant → Molecular Assistant → Molecular Biologist
→ QA Technician/Technologist → L&C Associate Scientists → Clinical Research & Genetics Research → Safety Analyst

BIOTECHNOLOGY DRY LAB & WET LAB TRAINING PROGRAM

“ABS Medico – We remove the tag of “Fresher” and rebuild you as an industry-eady professional.”

Stop waiting for a chance— ABS Medico trains you to create one.

“Stop waiting for chance— ABS Medico trains you to create one.”

No contacts? No experience? ABS Medico gives skills that take you places.”

Big dreams, small EMI. Industry training has never been this accessible. pay slowly—your future shouldn't wait.

Lost after graduation? ABS Medico gives you direction, skills, and a real career path.

ENROLL NOW & BUILD STRONG CLINICAL RESEARCH CAREER!
